SUMMARY

B.Tech Computer Science student specializing in Information Security with hands-on experience building secure, full-stack cryptographic applications. Strong foundation in backend development, Python, and security engineering, backed by internship and hackathon experience, plus proven leadership managing large-scale university events.

EXPERIENCE

MediaCreche Solutions Pvt. Ltd. | Software Intern Jun 2026 – Aug 2026

- Designed and built core security modules; authentication, cryptography, and password generation, from the ground up.
- Developed a reusable PyPI package abstracting core cryptographic and password-management functionality into an installable library, enabling developers to add enterprise-grade security features with minimal configuration.

Tech: Python, Cryptography, PBKDF2, Flask, PyPI Packaging

PROJECTS

LockBox — Security Vault Application Jun 2026

Tech: Python, AES-256, bcrypt, SQLite, Tkinter

- Developed a full-stack Security Manager application in Python, implementing AES-256 encryption, bcrypt master password hashing, and secure vault storage using SQLite.

Automatic Medicine Dispenser Apr 2026

Tech: Arduino, C++, Servo Motor, RTC Module

- Designed and fabricated an automated hardware prototype using an Arduino microcontroller and a precise servo motor to accurately dispense critical medications.
- Integrated real-time clock scheduling to trigger automatic dispensations at precise, programmable intervals, minimizing human error in medical adherence.

EDUCATION

Vellore Institute of Technology *Vellore, Tamil Nadu*
B.Tech. Computer Science (Information Security) | Jul 2024 – Present
CGPA: 8.46

Delhi Public School, Whitefield *Bengaluru, Karnataka*
Class XII (CBSE) | Aggregate Performance: 88.2% June 2022 – Apr 2024

Gopalan International School *Bengaluru, Karnataka*
Class X (ICSE) | Aggregate Performance: 95.0% Jun 2010 – May 2022

LEADERSHIP & EXTRACURRICULARS

VIT MUN Society - USG Registrations (VITMUN'26) & Lead Editor, DEScore Apr 2026 – Current

- Lead Editor, DEScore: Managing the editorial pipeline, research quality, and scoring documentation for the society's publications.
- Press Corps Trainer: Mentoring students on international journalism, documentation, and diplomacy structures.
- Competitive badminton player at a semi-professional level, with active involvement in football

TECHNICAL SKILLS

- **Programming:** Python, C, C++, Java
- **Web Development:** HTML5, CSS3, JavaScript
- **Languages:** English, Hindi, Malayalam, Tamil
