SUMMARY

B.Tech Computer Science student specializing in Information Security with hands-on experience developing secure, full-stack cryptographic applications. Proven leadership experience managing large-scale university events and a strong foundation in backend development, Python, security engineering, and rapid product development through internships and hackathons.

EDUCATION

Vellore Institute of Technology <i>B.Tech. Computer Science (Information Security) </i> CGPA: 8.46	<i>Vellore, Tamil Nadu</i> Jul 2024 – Present
Delhi Public School, Whitefield <i>Class XII (CBSE) Aggregate Performance: 88.2%</i>	<i>Bengaluru, Karnataka</i> June 2022 – Apr 2024
Gopalan International School <i>Class X (ICSE) Aggregate Performance: 95.0%</i>	<i>Bengaluru, Karnataka</i> Jun 2010 – May 2022

EXPERIENCE

MediaCreche Solutions Pvt. Ltd. <i>Software Intern</i>	<i>Bengaluru, India</i> Jun 2026 – Present
- Developing a full-stack Security Manager application in Python, implementing AES-256 encryption, bcrypt master password hashing, and secure vault storage using SQLite. - Designing and building core security modules including authentication, cryptography, and password generation from the ground up. - Developing a reusable PyPI package that abstracts core cryptographic and password-management functionality into an installable library, enabling developers to integrate enterprise-grade security features into their own Python applications with minimal configuration.	
Tech: Python, AES-256, bcrypt, PBKDF2, SQLite, Tkinter, Flask	

PROJECTS

Automatic Medicine Dispenser Tech: Arduino, C++, Servo Motor, RTC Module	<i>Personal Project</i> April 2026
- Designed and fabricated an automated hardware prototype to accurately dispense critical medications using an Arduino micro-controller and a precise servo motor. - Integrated real-time clock scheduling modules to trigger automatic dispensations at precise, programmable time-intervals, minimizing human error in medical adherence.	

POSITIONS OF RESPONSIBILITY & EXTRA-CURRICULARS

VIT MUN Society <i>USG Registrations (VITMUN'26) & Lead Editor, DEScore</i>	<i>Vellore, India</i> April 2026 – Current
Lead Editor, DEScore: Managing the editorial pipeline, research quality, and scoring documentation for the society's publications. Press Corps Trainer: Mentoring students on international journalism, documentation, and diplomacy structures.	

Sports Achievements

Semi-Professional

- Competitive Badminton player performing at a semi-professional level; actively training and participating in tournament circuits.
- Active interest and regular engagement in Football and Model United Nations (MUN) events.

TECHNICAL SKILLS

- | | |
|---------------------------|--|
| • Programming: | Python, C, C++, Java |
| • Web Development: | HTML5, CSS3, JavaScript |
| • Soft Skills: | Analytical Problem Solving, Technical Documentation,
Team Collaboration, Adaptability, Communication Skills |
| • Languages: | English, Hindi, Malayalam, Tamil |
